

ADJUNCT FACULTY

Dr. Yasusei Kudo, is a Professor, Department of Oral Bioscience, Tokushima University Graduate School of Biomedical Sciences, Japan. He pursued his DDS and PhD from Hiroshima University, Japan. He served as Assistant Professor, Department of Oral Pathology, Hiroshima University Faculty of Dentistry. He was the Research Assistant Scientist, Department of Pathology, New York University School of Medicine -A fellow for IARC, further as assistant and associate professor at the Department of Oral Molecular Pathology, Institute of Biomedical Sciences, Tokushima University Graduate School. He is presently Professor, Department of Oral Bioscience, Tokushima University Graduate School of Biomedical Sciences. He holds several prestigious positions in reputed associations like International Association of Oral Pathologist. Japanese Association of Molecular Biology Member, Japanese Society of Oral Pathology, Japanese Cancer Association, Japanese Society of Pathology, Japanese Association for Oral Biology. He has won the Kouraku Award of Tokushima University, Research Award of Japanese Society of Pathology, Encouragement Research Award of Japanese Society of Pathology Encouragement Award of Japanese Association of Oral Pathology IAOP, Young Investigators Award of the Japanese Association for Oral Biology

Dr. Sivaprakash Rajasekharan BDS, MSc Paediatric Dentistry is currently working at the Department of Paediatric Dentistry and Special Care, Ghent University, Belgium. He graduated from Vinayaka Missions University, India in 2008 and completed his post graduate (2013) and PhD (2017) under the guidance of Prof. dr. Luc Martens from Ghent University, Belgium. His PhD thesis was based on the material properties, cytotoxicity and clinical efficacy of tricalcium silicate based cements. He received funding from the Flanders Research Foundation to work as a postdoctoral researcher Ghent University for 3 years. He is the recipient of the “Young investigator award” from the European Academy of Paediatric Dentistry (EAPD) in 2014. He is also a member of the Clinical Affairs Committee of the EAPD. His research interests include tricalcium silicates, bioactive materials, paediatric endodontics and regenerative therapy.

Visiting faculty

Dr. P. RAJASHREE, is an Assistant Professor at the Centre of Advanced Studies in Crystallography & Biophysics, University of Madras, Chennai – 600 025. She obtained her graduation and M.Phil from University of Madras. She pursued her Ph. D in Biochemistry - Immunology from National Institute of Research for Tuberculosis (ICMR), with emphasis on Immunology & Cell biology of Tuberculosis. Her research interests include Immune mechanisms in infection and cancer, Nanoparticles for sensing and immunotherapeutic application, Nanoceramics & mesoporous materials for biomedical application. She was awarded ICMR-JRF in 2004, JRF and NET in Life sciences on June 2004 under the CSIR Fellowship scheme. She was principal investigator in projects from UGC-UPE, DST-PURSE, DST-RUSA, DBT-Nanobiotek, DBT-BIRAC, IPS (Indian prosthodontic society) .She has 25 International Publications, 4 National Publications and chapter contribution in a Book.
